BETA CAROTENE (Vitamin - A)

- It is an antioxidant. Beta carotene prevents premature skin ageing and makes your skin less sensitive to the SUN.

ZINC

- It is a Key Mineral Required by the body for the production of collagen, while it also acts as an astringent, anti-inflammatory & healing agent.

- Zinc aids in healing the skin and prevents acne by regulating the activity of the oil glands.

Selenium & Manganese

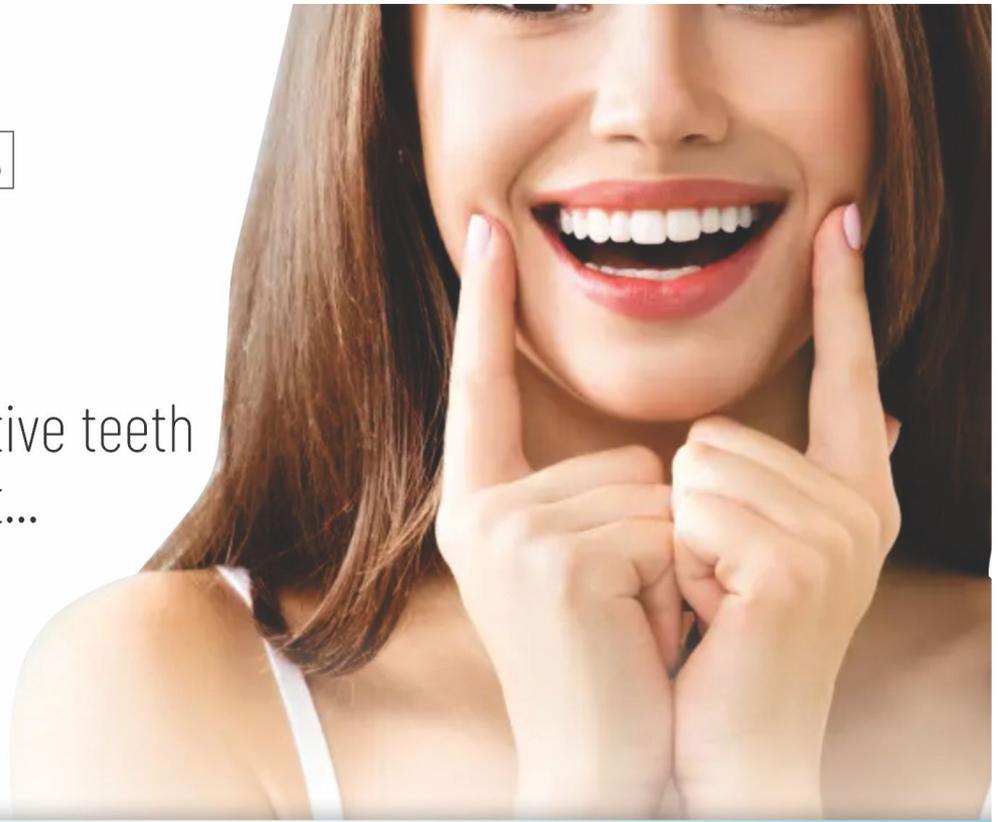

- Help to fight free radical cells. It forms antioxidants in the body to fight free radicals which damage cells and lead to aging.

Copper

- Copper plays an important role in maintaining collagen and elastin, major structural components of our bodies. Together with other antioxidants, may help prevent skin aging.
